**RE: Broadband Expansion Study – RFP23-003-41**

**Addenda #2 – Questions as of 3.28.2023**

**Questions and Answers**

**Since the proposals for the Broadband Expansion Study is a physical delivery, we will be printing and mailing our response tomorrow. Is it possible to have the q/a today, extend the deadline, or accept emailed responses?**

The County is agreeable to extending the deadline by one week due to the constrained timeline of receiving these proposals by mail. The new deadline will be April 7, 2023 at 4:00pm. Please be advised that this new deadline will have a cascading effect on the remaining deadlines associated with this proposal. I will be in contact with the respondents on the new deadlines as we proceed. Thank you!
